P-01  Horng-Yih Lee (Chung Shan Medical University, Taiwan)
The Writing Language Performance in Children with Attention Deficit Hyperactivity Disorder

P-02  Akio Nakai, (University of Fukui, Japan)
The Relationship between Motor Coordination Impairments and ADHD Traits in Japanese Children: Lessons from a Nation-Wide Study, using Japanese version of the DCDQ and the MOQ-T

P-03  Rohit Verma (Lady Hardinge Medical College & Associated Hospitals, India)
Association of ADHD with Suicidality: Impact on Psychopharmacological Management

P-04  Xue Yu (Beijing Normal University, China)
Steep Delay Discounting of Attention-Deficit/Hyperactivity-Impulsivity (ADHD): The Contribution of Delay, Experimental Paradigms and Symptom Dimensions

P-05  En lin Yang (Chung Shan Medical University, Taiwan)
The Performance of Asperger's Syndrome and Attention Deficit/Hyperactivity Disorder on Working Memory and Time Discrimination Tasks

P-06  Soyoung Irene Lee (Soonchunchunhyang University Bucheon Hospital, Korea)
Working Memory Impairments in Korean Children and Adolescents with Attention-Deficit/Hyperactivity Disorder

P-07  Geraldine Anne D. Lobo (Philippine Children’s Medical Center, Philippines)
The Prevalence of Psychosocial Dysfunction and its Associated Factors among out-patients of the Philippine Children's Medical Center Using the Pictorial Pediatric Symptom Checklist-Filipion Version: a Cross-Sectional Study

P-08  Anna Lizza S. Manalac (Philippine Children’s Medical Center, Philippines)
Cross Sectional Study of the Neuropsychiatric Profile of Children with Epilepsy and their Siblings Using the Mini-International Neuropsychiatric Interview for Children and Adolescents

P-09  Hyun-Jeong Lee (Asan Medical Center, Korea)
Attention Profile in Childhood Absence Epilepsy

P-10  Hana Seung (Konkuk University, Korea)
Effects of NMDA and mGluR Antagonists on Increased Locomotive Activity and Social Impairments in Prenatally Valproic Acid Exposed Rat Offspring
P-11 Tzu-Feng Wu (Chung Shan Medical University, Taiwan)
To Apply the Stop Signal Task in Clinical Assessment: Preschool Children with AD/HD in Taiwan

P-12 Yumiko Matsuo (SHIONOGI & CO., LTD., Japan)
A Phase 1, Randomized, Double-blind, Placebo-controlled Study to Evaluate the Safety, Tolerability, and Pharmacokinetics of Single and Multiple Doses of Guanfacine Extended-release Formulation in Healthy Japanese and Caucasian Adults

P-13 James Ermer (Shire, USA)
A Phase 1, Randomized, Double-blind, Placebo-controlled Study to Evaluate the Safety, Tolerability, and Pharmacokinetics of Single and Multiple Doses of Iisdexamfetamine Dimesylate in Japanese and Caucasian Healthy Adult Subjects

P-14 Yuji Inoue (SHIONOGI & CO., LTD., Japan)
Metabolism of Guanfacine Extended-release Formulation in Healthy Japanese Subjects

P-15 Kathryn B. Braganza (Philippine Children's Medical Center, Philippines)
Knowledge, Attitudes and Practices of Pediatricians Towards Developmental Screening in the Philippines

P-16 Shuan-Ju R. Hung (University of Frankfurt, Germany)
Let's Go or Not Go! A Pilot ERP Study of Response Inhibition in Children with ADHD in Taiwan

P-17 Junichiro Kanazawa (Health Sciences University of Hokkaido, Japan)
Impact of ADHD Symptoms and Mood States on Functional Impairments among Adult ADHD Patients, University Students, and General Adults

P-18 Sumiyoshi Arai (University of Fukui, Japan)
Effects of Methylphenidate on Neuropsychological Performance in Children with ADHD Using the Cambridge Neuropsychological Test Automated Battery (CANTAB)

P-19 Fenghua Li (Chinese Academy of Sciences, China)
Exploring a best method in international collaborative research in assessment of ADHD

P-20 Aysegül S Güler (Guzel Gunler Health Services, Turkey)
Factors Related with a Clinical Decision of Risperidone Use in Children with Attention Deficit Hyperactivity Disorder

P-21 Toshinobu Takeda (Ryukoku University, Japan)
Developing the semi-structured diagnostic interview for adult ADHD first in Asia

P-22 Shinji Okazaki (University of Tsukuba, Japan)
Hemodynamic Response during Problem-making and Solving in Children with ADHD
P-23 Ayaka Ishii-Takahashi (University of Tokyo, Japan)
Neuroimaging-aided Prediction of the Effect of Methylphenidate in Children with Attention Deficit Hyperactivity Disorder - A Randomized Controlled Trial

P-24 Yushiro Yamashita (Kurume University, Japan)
Quality of Life Reported by Children with ADHD and their Mothers who Participated in a Summer Treatment Program

P-25 Yushiro Yamashita (Kurume University, Japan)
The Objective Evaluation of Diadochokinesia: A Comparison Between Typically Developing Children and Children with ADHD

P-26 Takahiko Inagaki (Shiga University of Medical Science, Japan)
Two Case Reports of Misdiagnosis as Attention-Deficit/Hyperactivity Disorder

P-27 Se-hoon Shim (Soonchunhyang University, Korea)
Neurotrophic Factors in Attention Deficit Hyperactivity Disorder

P-28 Masako Nagashima (Jichi Medical University, Japan)
The effect of Atomoxetine in ADHD Children Using fNIRS Monitoring During Go/No-go Tasks: A Randomized, Double-blind, Placebo-controlled, Crossover Trial

P-29 Chun-Ya Kuo (Chung Shan Medical University Hospital, Taiwan)
Comparison of Different Executive Functions in Three Attention-Deficit/Hyperactivity Disorder (ADHD) Subtypes

P-30 Eiji Kirino (Juntendo University Shizuoka Hospital, Japan)
Socio-demographics, Comorbidities, Health Care Resource Use and Work Productivity in Japanese Patients with Adult ADHD
